NUMBER OF EXHIBITORS BY SECTORS 2017

ANDALUCIA SABOR 2019. 7th EDITION.

The 7th edition of the exhibition Andalucía Sabor will take place between 23 and 25 of September 2019. As a novelty, its location changes to the FIBES I Exhibition area which has a **greater exhibition area**, located within the Conference Hall of Seville.

Its capacity has been extended to be able to accommodate the growing demand of requests for participation not only from companies in Andalusia but beyond our borders. This will help create large synergies between the Andalusian, Spanish and International agri-food industry to establish valuable contacts, generate business opportunities and explore new markets.

Andalucía Sabor 2019 will continue to promote **business meetings** encouraged by the **national and international trade missions**. Extenda will arrange meetings with the international distribution companies attending the exhibition.

This 7th edition will coincide once again with the **Gastronomic Congress** that will be developed in the same area and in parallel to the exhibition. In this occasion, the Congress will aim to support the

consolidation, boost and promotion of the agri-food and fishing production of Andalusia, paying special attention to the distinguished quality elements linked to origin (PDO, PGI, etc), organic production and integrated production.

ACTIVITIES

In order to promote the products and brands of the agri-food and fishing companies which participate in Andalucía Sabor, there will be an area called "Sabor en vivo" (Live Flavour) where the latest developments will be showcased in situ, and different activities such as wine tasting, food tastings, live cooking, pairings and presentations will be performed.

Again, wines and extra virgin olive oils will have a prominent presence in the different areas: The Wine and Extra Virgin Olive Oil exhibitions will develop tastings and training talks that will showcase the quality of these Andalusian products.
